WORK EXPERIENCE

January 2023 – Present

Geosciencies Barcelona

Post-Doctoral Researcher

Barcelona, Spain

- ChEESE project, phase 2: Centre of Excellence (CoE) for Exascale in Solid Earth
- DT-GEO project: A Digital Twin for GEOphysical extremes
- Volcanic ash/gases transport and dispersion models
- Active developer of the FALL3D code
- Ensemble forecasting for volcanic ash dispersal and deposition
- Ensemble-based data assimilation
- Development of a digital twin component for volcanic dispersal and tephra fallout

February 2019 – December 2022

Barcelona Supercomputing Center

Post-Doctoral Researcher

Barcelona, Spain

- ChEESE project: Centre of Excellence (CoE) for Exascale in Solid Earth
- Developer of the computational model for atmospheric transport and deposition of particles, aerosols and radionuclides FALL3D
- Pilot demonstrator: High-resolution volcanic ash dispersal forecast
- Implementation of an ensemble-based data assimilation system based on FALL3D+PDAF
- Implementation of a volcanic ash resuspension module

April 2012 – December 2018

National Weather Service

Research fellow

Buenos Aires, Argentina

- SAVER-Net Project: South American Environmental Risk Management Network
- PIDDEF 41/10 Project: Application of modern Numerical Models for weather forecasting at the National Meteorological Service, Argentina. Studies of environmental vulnerability and socio-economic impact
- Implementation of a system for providing near real-time products of Lidar data at the National Weather Service
- Development of algorithms for the inversion of lidar signals
- Experience with Numerical Weather Prediction (NWP) models (WRF-ARW)

April 2009 – December 2016

University of Buenos Aires

Teaching Assistant

Buenos Aires, Argentina

- Undergraduate courses of Maths (2009–2016) and Physics (2015)
- Ciclo Básico Común (CBC), first university year

EDUCATION AND TRAINING

2013–2018 PhD in Earth & Environmental Sciences

Department of Physics, University of Buenos Aires, Argentina

- Dissertation: Modeling volcanic ash fallout resuspension for operational forecast purposes
- In collaboration with the National Weather Service (Argentina)
- Distinction: Outstanding thesis

2012 University Degree in Physics

Department of Physics, University of Buenos Aires, Argentina

- Thesis title: Epidemics in adaptive networks
- Average university grade: 9.04/10.0

SUPERVISING EXPERIENCE

2024 Degree Thesis (ongoing)

- Student: Micaela Clara Maurizi
- Title: Técnicas de validación y de mejora de los pronósticos por ensamble de concentración de cenizas volcánicas
- Supervisors: Soledad Osores & Leonardo Mingari
- Institute: University of Buenos Aires, Buenos Aires, Argentina

2024 Master Thesis

- Student: Joan Aymerich Nicolàs
- Title: Modeling Ash Dispersion and Deposition during La Palma 2021 eruption: an assessment of the impact of meteorology on simulating an eruption
- Supervisors: Leonardo Mingari & Arnau Folch
- Institute: Universitat Autònoma de Barcelona, Barcelona, Spain

2024 Master Thesis

- Student: Samanta Córdova Sánchez
- Title: Estratigrafía y dinámica eruptiva del sistema volcánico Can Tià-La Tuta-Fontpobra (Campo Volcánico de la Garrotxa), implicación para la peligrosidad volcánica
- Supervisors: Dario Pedrazzi & Leonardo Mingari
- Institute: Universitat Autònoma de Barcelona, Barcelona, Spain

2020–Present PhD Thesis (ongoing)

- Student: Eliana Vázquez
- Title: Ensemble forecast of volcanic ash remobilization in southern South America
- Supervisors: Leonardo Mingari & Soledad Osores
- Institute: University of Buenos Aires, Buenos Aires, Argentina

PERSONAL SKILLS

Mother tongue Spanish

Other languages

	UNDERSTANDING		SPEAKING		WRITING
	Listening	Reading	Spoken interaction	Spoken production	
English	B2	B2	B2	B2	B2

Levels: A1 and A2: Basic user – B1 and B2: Independent user – C1 and C2: Proficient user
[Common European Framework of Reference for Languages](https://european-framework-for-reference-for-languages)

Computer skills

Programming languages

- Fortran 95-2003
- MPI & OpenMP
- Python (NumPy, SciPy, Matplotlib, Cartopy...)
- Java
- C/C++
- Haskell
- \LaTeX 2_ε
- HTML/CSS

Scientific tools	<ul style="list-style-type: none"> – NCAR Command Language (NCL) – QGIS – Inkscape – Matlab, GNU Octave – Mathematica, Reduce – LabView – Processing tools for scientific data formats (GRIB, NetCDF, HDF5, Shapefile)
Unix/Linux environment	<ul style="list-style-type: none"> – Arch linux, Ubuntu – Unix Shell Scripting (sh, bash, zsh) – Experience with HPC clusters – Cluster management and job scheduling system – Git – Vim

AWARDS & FELLOWSHIPS

April 2013–April 2018

Buenos Aires, Argentina

Doctoral fellowship

CONICET fellowship program for doctoral studies

- Institute: Department of Physics, University of Buenos Aires
- Duration: 5 years
- Funding Institution: CONICET (Argentina)

February 2016–September 2016

Barcelona, Spain

Scholarship for Study Abroad in Science and Technology

BEC.AR Programme: Research Stays for PhD candidates

- Institute: Barcelona Supercomputing Center
- Duration: 8 months
- Funding Institution: Jefatura de Gabinete de Ministros de la Nación (Argentina)

April 2012–April 2013

Buenos Aires, Argentina

Undergraduate research fellowship

PIDDEF 41/10 project

- Institute: National Meteorological Service
- Duration: 1 year
- Funding Institution: Argentine Ministry of Defence

TEACHING EXPERIENCE

Postgraduate courses

- 2024 Training course: Computational volcanology
 - Lecturer
 - Institute: Barcelona Supercomputing Center, Barcelona, Spain
- 2019 PATC course: HPC and natural hazards
 - Lecturer
 - Institute: Barcelona Supercomputing Center, Barcelona, Spain
- 2017 Master course: Remote Sensing and Modelling of Volcanic Eruptions
 - Visiting Lecturer
 - Institute: Instituto Mario Gulich, Córdoba, Argentina

University courses

- 2009–2016 Math undergraduate course
 - Teaching Assistant
 - Institute: University of Buenos Aires, Argentina
- 2015 Physics undergraduate course
 - Teaching Assistant
 - Institute: University of Buenos Aires, Argentina
